AERO BP Lithium

TASKI AERO BP back pack vacuums

light, agile & versatile

TASKI AERO BP brings you:

Light, quiet & discreet

The AERO BP is perfect for stairs, lifts, and entrances. The battery model is exceptional for transport, leisure, building circulation areas. Anywhere the presence of the public makes safety a priority. Low weight & sound level is achieved through smart design & materials without impacting performance and creating unpleasant heat. Small dimensions, subdued colour and low profile make it ultra-discreet.

Comfort & ergonomics

Low overall weight is critical to any back pack vacuum. At just 4.7 kg (electric) and 5.3 kg (battery), they are amongst the lightest performance back pack vacuums available. The slim profile and webbing made from hi-tech modern ruck sack materials deliver near perfect weight distribution and exceptional user comfort.

Flexibility / Autonomy

Three in one – back pack vacuum, tub vacuum and blower. Both models can easily and quickly be converted into either an ultra-compact tub vacuum or a leaf, sand or debris blower. To save cost and improve flexibility the same lithium battery/charger from the TASKI swingo 150b scrubber drier is used. The AERO BP lithium model has a run time of 30mins and a recharge of just 90 min. Extra batteries are available for increased autonomy.

Performance

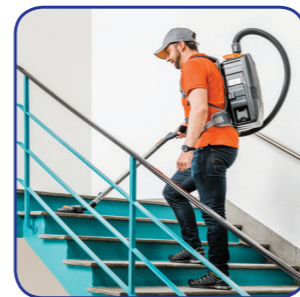

The EU Eco Label Rating is the measurement of overall performance. The AERO BP electric version is highly rated at A. The AERO BP Lithium delivers a highly credible 22 L/sec whilst the electric model delivers a superb 30 L/sec of suction. The optional TASKI Turbo Brush delivers brilliant cleaning performance.

Transportation

Cinema and opera

Staircase

Congested areas such as classrooms

Office flow/spot cleaning

Quick problem solver

TASKI AERO BP / TASKI AERO BP

3in1 multifunctional platform 3in1 – back pack vacuum, tub vacuum and blower.

Multifunctional – battery or electric tub vacuum function

Both the powerful & efficient electric model and the ultra-versatile Lithium battery model can easily and quickly be converted into an ultra-compact tub vacuum. Simply remove the 4 x bolts attaching the backpack webbing & straps with a screwdriver. Screw in the four caster wheels and you now have a slim & low profile battery or electric tub vacuum.

Multifunctional – battery or electric blower function

Both models can easily and quickly be converted into useful backpack blower. Attach the blower plate to the exhaust outlet and you now have backpack blower to deal with debris such as leaves, paper and even sand. Perfect for dealing with debris in seasonal or inclement weather. No need to buy a separate blower, save your money.
