Please check all files and run proofs before printing.

Proofs must be received by Spot On. No responsibility will be accepted by Spot On for incorrect print or print quality where formal sign off has not been given.

Please send all proofs to: proofcheck@spotonsolutions.co.uk

Ever tried Persil Small & Mighty?
 A liquid that delivers an outstanding cleaning experience

Persil Non Bio liquid contains Stain Removal Booster Technology that removes stains quickly and helps prevent against future staining. It cleans tough stains even in a quick wash, whilst still kind and gentle next to sensitive skin.

HOW TO GET GREAT RESULTS

- For best results, use the dosing ball and place it upright on top of the wash load, towards the back of the drum.
- Do not use the dosing ball in a pre-wash programme.
- Do not put the dosing ball into tumble dryers, or the drying cycle of washer/dryers.
- Do not overload your washing machine.
- Always check the article's care label and follow washing instructions.
- Do not wash flame resistant fabrics in hot water, i.e. above 50°C.
- Pre-sort your washing into whites, lights and colours.
- For machine washable wools and silks, we recommend using Persil Silk and Wool.
- Always check for colour-fastness before pre-treating stains with neat liquid.
- Don't soak non-colourfast, flame resistant fabrics, leather or garments with metal fasteners. Do not use on silk and wool.
- If you need a dosing ball please visit www.persil.co.uk/dosing
