

Good Sense Breakdown Mini Guide

Use for cleaning:

All washroom surfaces

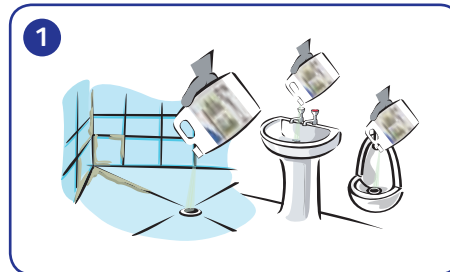

Washroom cleaner

Odour Neutralising Technology Incorporated

Using...

1

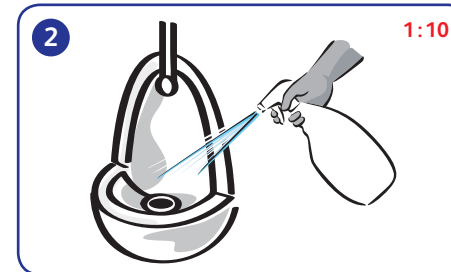

Use neat on difficult areas. Pour into overflow of sink basin or down the urinal and drain points. Allow contact time.

3

1:20

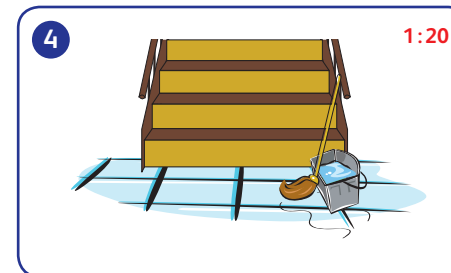

For general washroom cleaning – including odour issues associated with floors/grouting. Dilute at 1 : 20 (8 pumps in 5 L) in a bucket and apply with mop/cloth or sponge. Allow 5 minutes contact time before scrubbing with machine or deck brush and then pick up solution with a damp mop with clean water.

2

1:10

Can be used as a daily cleaner for waterless urinals at 1 : 10 dilution (2 pumps in 500 ml), spray onto surfaces and brush before rinsing off.

4

1:20

Can also be used for odour issues in stair wells etc at 1 : 20 dilution.
