

**THE NEW  
STANDARD IN  
OSCILLATION  
CLEANING**

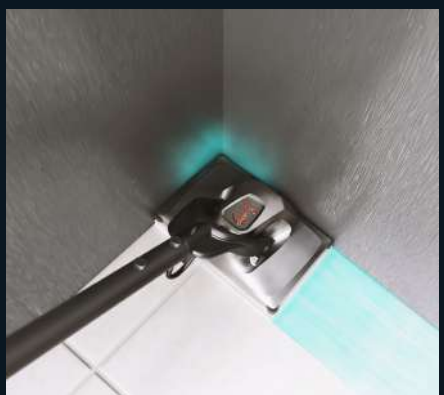

**SHOCK**  
Coming Soon

APPLICATIONS

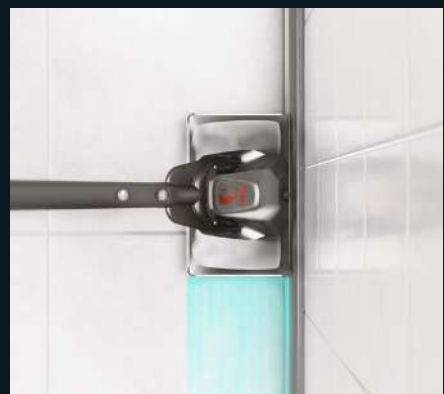

Baseboards scrubbed with a single motion

Cleans any corner

5000rpm for fast, powerful coverage

Precision edge cleaning

Stairs cleaned safely at speed

Cleans under the tightest spaces

**Ground breaking  
Cleaning Performance.**

**Taking high-power oscillating  
floor cleaning lower than ever  
before**

High power. Low profile. SHOCK is oscillating floor cleaning, re-imagined. Driven by a state-of-the-art digital motor, SHOCK utilises powerful shockwave technology and a precisely optimised scrubbing orbit to deliver a ground-breaking clean.

Turn up your downforce connecting the 2kg seismic weight kit, or keep it lightweight for maximum manoeuvrability to target stairs, baseboards or walls. Transition quickly between areas using SHOCK's quick-change MagPlate magnetic pad system. And clean into the tightest spaces, guided by our patent-pending protective glide wheels.

Disrupt your cleaning routine with the latest in compact cleaning technology.

SHOCK KEY FEATURES

-  Powerful oscillating shockwave technology, powered by 5000rpm motor
-  Quick-connect seismic weight kit
-  World's lowest profile head
-  Protective glide wheels for precise clean

SHOCK uses minimal water and powerful agitation to eliminate the need for harsh chemicals.  
It's better for our planet.

PRODUCT HIGHLIGHTS

**Seismic Weight Kit**  
Our optional seismic weight kit adds 2kg/4.4lb and provides huge downforce for unbeatable results.

**Magnetic Pad Holder**  
Utilising our MagPlate technology, simply place the holder on the floor and watch it automatically lock against the oscillating driver.

**Downforce Yoke**  
Our unique 'Y' chassis applies central downforce across the machine, providing complete control and adding extra pressure where needed.

**Spray**  
On-demand spray and a high-pressure pump provide an even and targeted application of cleaning solution.

**Oscillation**  
Our powerful oscillating technology connects to our in-house designed, state-of-the-art digital motor to deliver 5000rpm of powerful scrubbing action.

**Glide Wheels**  
Our meticulously designed rotating rubber glide wheels protect your walls while you deliver precision cleaning in the tightest spaces.

# TECHNICAL SPECIFICATIONS

## BACKPACK

Run Time	1 hour Quick change battery for additional runtime
Charging Time	Up to 8 hours or overnight
Battery Spec	12 Volt 7AH sealed battery / Lithium-ion quick charge battery
Solution Capacity	1l (0.2gl)
Backpack Weight	3.8kg (8.4lbs) secured to waist

## HANDLE

Machine Weight	2.5kg (5.5lb) 4.5kg (9.9lb) with weight kit
Telescopic Handle	70 – 140cm (27.6 – 55.1in)
Operation	Easy press-and-go controls
User Comfort	Soft rubber grips

## HEAD

Cleaning Width	240mm (9.4in)
Scrubbing Power	5000rpm
Linear Baseboard Performance	Spray, scrub and dry 10m (32ft) in 80 seconds

# WIDE RANGE OF ACCESSORIES

## M CASE PRO

M-Case Pro holds two machines of your choice, BLADE and all our brushes and pads. It's easily transportable, allowing you to tackle any cleaning challenge at any location.

## WALL DOCK

The perfect solution for limited storage space to hang your equipment neatly on the wall.
