Basecamp Top Trolley Configurations

Created by experts, designed by you

TASKI® Trolley System. Created by experts, designed by you.

The TASKI trolley system offers complete modularity, flexibility and highest durability for all cleaning methods. The intuitive design allows the user to move components and accessories to a variety of different positions and to adapt them to specific work habits and processes. Many features make the trolley easier and faster to use, helping to increase productivity and flexibility.

In order to help reduce some of the complexity we have created this document to help you identify some of the top selling configurations from across Europe. Here you will find images of the trolley, possible areas of use, primary sector recommendations, and a list of SKU's that make up the configuration. We hope that you can share these with your sales teams and make use of already existing SKU's.
