

Ozone OC700

Fresh Air Purifier

The Natural Cleaner

Powerful and Portable – a great combination

The Ozone OC700 Natural Air Cleaner is a state of the art, compact and powerful ozone generator that restores air quality at the touch of a button. It generates a measured amount of ozone gas that naturally destroys odours and bacteria on contact, cleaning the air simply and quickly. Fresh, clean smelling air is critical for business.

The OC700 will deliver clean, sanitised environments with each and every use. Its flexibility means it can be used by any organisation where good air quality is vital. It can help return rooms to service within 15 minutes, making it ideal for offices, care homes, hotels - in fact anywhere that rapid elimination of odours is key to a better environment and often the key to higher sales.

Its high portability means it can be quickly and easily moved to an area that needs treating, making it ideal for hotels, offices, classrooms and even mobile homes. In fact, the OC700 can treat any indoor area that has an odour problem.

Cheaper and more efficient than traditional air cleaning technology, means fresh air is now available at a touch of a button.

Safe and simple to use

Place the OC700 in the room to be treated, turn it on, select the treatment time. . . and leave the room – the OC700 will do the rest - it's that simple.

Whatever cycle time you choose the OC700 will automatically produce ozone and using its inbuilt destruct capability; it will destroy any residual ozone so that rooms are safe to reoccupy as soon as the cycle time finishes.

No more artificial air fresheners that only mask unpleasant odours - Just fresh, clean smelling air.

Typical Applications

Ozone will destroy all known odours – from smoking, damp, cooking or paint: Ozone naturally attacks the odour and eliminates it. As a gas, it can get into those hard to reach areas and is especially effective in eliminating odours trapped in soft furnishings like carpets and curtains. Whether it's an emergency or part of routine cleaning, the OC700 will become an invaluable part of any housekeeping armoury.

Key Features

- Easy to use push button control panel
- 5 fully automated activation and deactivation cycles: 15min, 30 min, 45 min, 60 min, 120 min
- Operational feedback using LED indicators and audio sounder
- Instant safety stop button
- Inbuilt hourly usage meter
- Robust Aluminium construction

Specifications

- Application area 10 - 300 m3
- Input voltage 220V/50-60Hz with 5A Fuse
- Power consumption 140W max.
- Dimensions 305 x 334 x 327 mm
- Weight 9 kg
- Warranty 12 months

Added Options

For easy transportation, your OC700 can be easily adapted to include an optional add-on handle and wheel assembly.
