

Make Room For An Enhanced Clean.

Professional cleaning machinery designed for the hotel sector.

A STORM[®]ing Success

MotorScrubber - Trusted by prestigious hotels as part of their deep cleaning processes.

THE GRAND
BRIGHTON

“We can disinfect all areas very quickly”

What I like about STORM[®] is the efficiency. We can disinfect all areas very quickly, and it's easy to use and to carry too. The design is great, it looks professional and it is produced in Britain. We've been using STORM[®] since we re-opened throughout all areas of the hotel, with a focus on frequently used touch points. STORM[®] has helped us to keep high standards of cleanliness which ensures a safe environment for guests and staff, adding confidence to our safety policies.

Touch Point Disinfection

Targeted Spray-Scrub Technology.

JET3's on-demand, Targeted Spray-Scrub Technology and compact size allows efficient deep cleaning of the hard to reach areas throughout all areas of the hotel, including:

- Reception areas
- Bathroom / Toilet area
- Restaurant / Kitchen
- Stairs (with the Stair Brush)

JET3 FEATURES

- 🌀 **Powerful 360rpm Scrub Technology**
- 🔋 **Battery Backpack Technology** (User Fully Mobile)

Targeted Spray On Demand.

Solution is delivered through the powerful, high pressure pump for targeted application.

Lightweight & Comfortable.

Secured to the waist, the battery-powered backpack maintains perfect posture for all day wear.

Pivoting Handle.

Easily gain access and clean underneath objects as low as 20cm (8"), using JET3's pivoting handle.

(Backpack powers both JET3 and STORM® machines)

Cut Dirt. Not Corners.

The 2 in 1 Ultra-Microfibre System delivers an unbeatable clean. Providing up to 80x more surface pressure, BLADE's powerful performance allows for effortless cleaning within many hotel areas, including:

- Guest areas
- Bathroom / Toilet
- Reception areas
- Restaurant / Kitchen

BLADE FEATURES

- Precision Edge Cleaning
- Up to 80x More Surface Pressure**
(Compared To Other Flat Mops)

More Surface Pressure.

The Power Squeegee's sharp edge exerts up to 80x more surface pressure onto the Ultra-Microfibre* resulting in more dirt removed with each clean.

No Need For Buckets.

With its refillable handle and built in spray, BLADE sprays fresh, clean solution on-demand, activated by the push of button.

Every Press = Fresh Solution

Reversible.

Reset the Power Squeegee on the Ultra-Microfibre to reveal a clean section. Once dirty, flip the Ultra-Microfibre for continued clean use.

Every Reset = Fresh Ultra-Microfibre

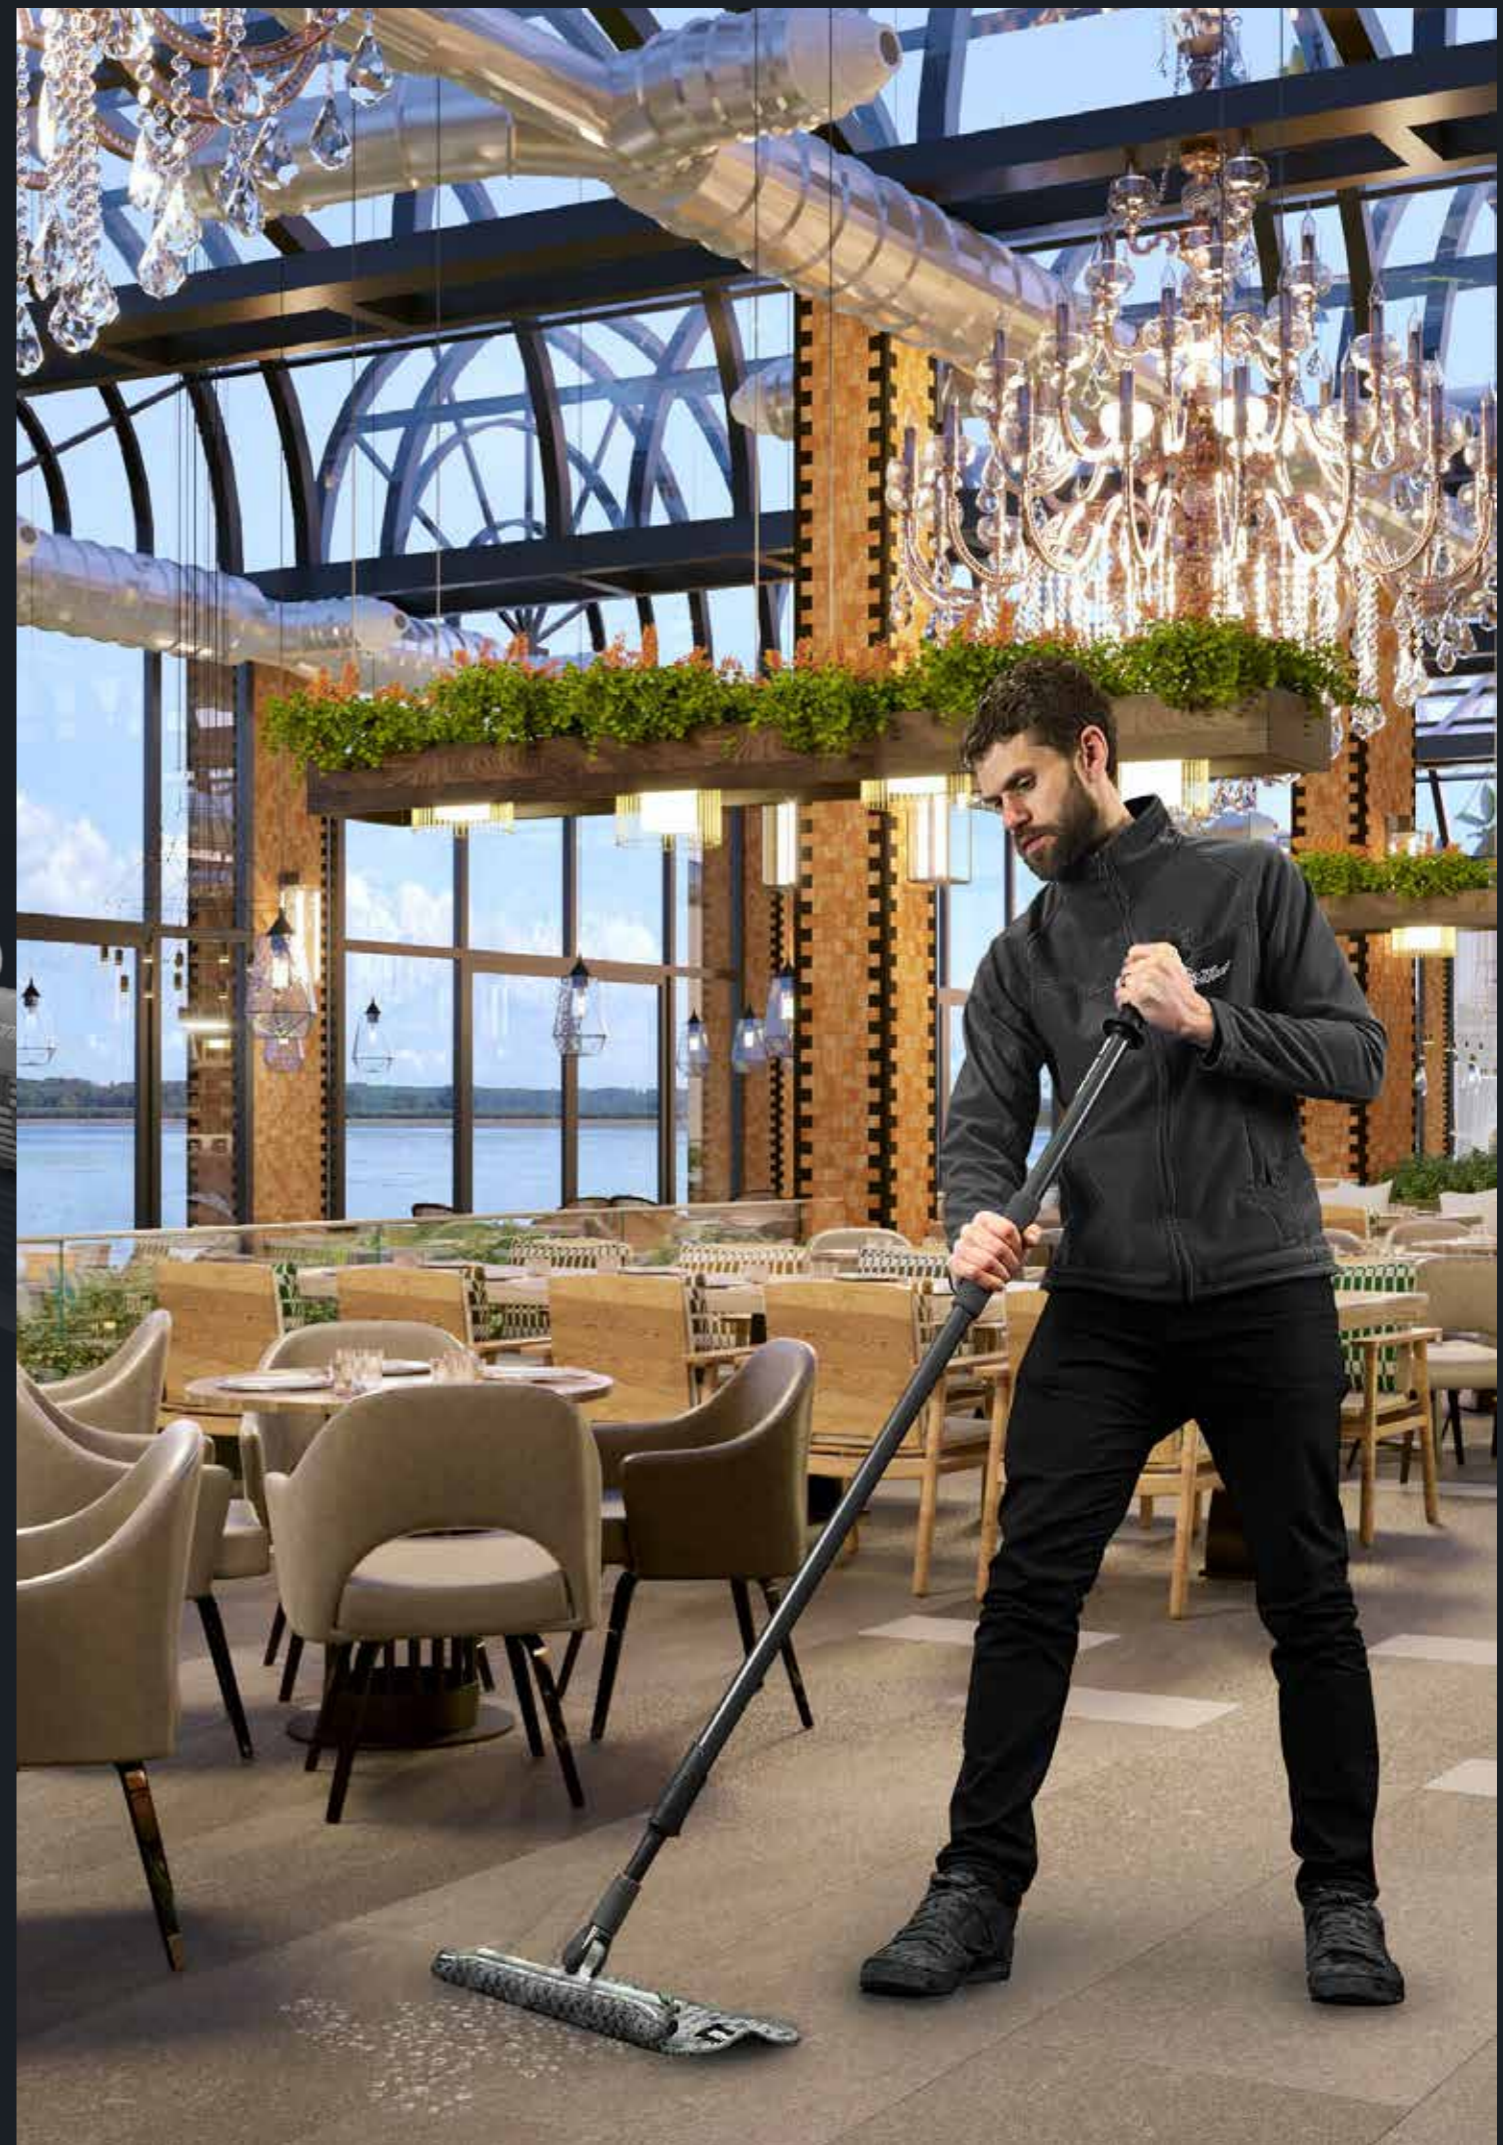

**2 IN 1
SYSTEM**

FUNCTION 1

Power Squeegee

FUNCTION 2

**Ultra-Microfibre
Mopping System**

*Compared to conventional flat mops.

Proactive Touch Point Disinfection

STORM® and M-Wipes. The world's only spray applicator with wearable and disposable wipe system (Patent Pending) specifically invented for fast, targeted, disinfection of common touch points within the hotel environment, including:

- Reception areas
- Door handles
- Toilet areas
- Guest Areas

STORM® & M-WIPES FEATURES

- **Spray On Demand**
- **Ballistic, High Speed Swirl Nozzle** (68 Micron)
- **On-Board System** (M-Wipes attach to STORM® backpack)

Targeted Disinfection.

STORM® delivers targeted, touch point disinfection, for proactive virus control.

Lightweight & Comfortable.

The battery-powered backpack guarantees all day comfort. With padded back support and adjustable waist belt, it maintains perfect posture all day.

Wipe Out The Risk.

Fitting to the STORM® backpack belt system, the M-Wipes System allows disinfectant to be applied to the reverse side of 3D touch points, e.g toilet door handles, ensuring full coverage is achieved.

(Backpack powers both STORM® and JET3 machines)
