

Horizon Peroxy

The professional choice for your laundry

Horizon Peroxy

- High temperature destainer
- Safe on colours
- Suitable for specialist garments

High temperature destainer

Horizon Peroxy is a peroxide based laundry destainer that has been designed for use with Horizon Active. This bleach system is based on hydrogen peroxide which makes it particularly efficient at high temperature.

Safe on colours

Horizon Peroxy can be used on a wide range of garments (except nylon) since it causes minimal chemical damage and can be used on colours when used according to the instructions.

Horizon Peroxy

Suitable for specialist garments Horizon Peroxy is safe for use in specialist environments on flame retardant treated finishes. Moreover, it does not react with chlorhexidine and thus prevents any oxidising of stains as well as any chemical damage to fabrics.

Horizon Peroxy

Horizon Peroxy is a peroxy based laundry destainer. For best results, use in conjunction with Horizon Active.

Usage instructions

Allow 2-7 mls per kg of dry goods.

Top tips

- Always check your articles care label.
- Sort your wash into whites, light colours and dark colours and then by fabric groups.
- Never overload the machine as this can cause a poor wash and ultimately damage the garments or the machine.

For use with Diversey Professional Auto-Dosed Laundry System

Product code	Pack Size	Cases per layer	Cases per pallet	Inner Bar Code
6000840	1 x 10L	25	50	5011888037700
